

CONNECTING LEARNING COMMUNITIES – BROKEN BAY DIOCESE LEADING THE WAY!

"The Catholic Schools Office for the Broken Bay Diocese has offered the ICDL to all its teachers, primary and secondary across the diocese as part of their Professional Development. The Catholic Schools Office has launched a three year plan to improve the quality of our teaching and learning using Information, Communication and Learning Technologies, called "Connecting Learning Communities".

We now have over 1,000 staff across the diocese of Broken Bay undertaking the ICDL School-Based Professional Development. All teachers have been provided with a CD-Rom which delivers the course and staff are able to use this for their learning at school or at home. Testing is conducted outside of school hours in each school and to-date we have had 5 teachers complete the course and gain their ICDL.

The number of staff who have been tested in at least four modules is over 100, with most of the 1000 teachers having been tested in at least one module. We have challenged our teachers to complete their ICDL within 18 months."
