

SCHOOLS, STUDENTS AND TEST CENTRES SPEAK OUT ON THE VALUE OF THE ICDL PROGRAM

Over the years, we have been fortunate to have received numerous positive comments about the benefits of the ICDL. Here are some of the things our customers have said about us:

ABBOTSLEIGH:

Staff Comments:

My confidence with computers has risen significantly and I'm now more willing to use computers as part of my classroom teaching.

Taking the tests at the end of each module made me more aware of how students feel when I give them a test.

Even though I consider myself a fairly competent computer user, I have still been able to pick-up new tips and ways of doing things.

Student Comments:

I already knew some of the topics that we studied but we explored them in more depth which resulted in a more thorough understanding. I remember small helpful little things from the course that I use in my every day computing life. This course goes onto my application for my future job and will be a help to me in later life. I really enjoy the ICDL.

ICDL has helped me a lot for both in and out of school things. At home I know much more about how to use my computer and at school I know a lot for tests. It has definitely helped to improve my computing skills.

Challenge

CHALLENGE RECRUITMENT:

The ICDL solution is fantastic for organisations that want to ensure that their staff have a benchmarked level of computer ability or for individuals that want to learn how to use a computer or just consolidate their existing skills.

The beauty of the way we offer the ICDL is that participants can study in their workplace, at our training centre or in the comfort of their own home and all at their own pace, taking away the hesitation in participating in costly, classroom style learning.

- Cassandra Curtis, Learning & Development Manager

DARWIN CITY COUNCIL

Staff Comments:

"After sitting the ICDL if I see this certification on a resume it would certainly be a benefit to the applicant.

I'm going out to buy a computer now."

NSW ADULT MIGRANT ENGLISH SERVICES:

Doing the ICDL program has been a great help to me, in establishing a new life for me here in Australia. Two months ago, shortly after I finished the course, my partner and I started a new video shop where everything is managed on computers.

I could not be doing what I am doing now without the training I received in this course. The general knowledge it gave me has helped me in understanding the specific software we are using as well.

- ICDL Participant

ST PETERS LUTHERAN COLLEGE:

The benefits of using this e-learning solution (ICDL) are the consistency of approach, opportunity for complete coverage of the syllabus, ease of testing and the significant saving in time of marking. We have found the solution very good and superior in functionality².

- Paul Herring, Head of IT.
